COUNTY SEAT OF NORFOLK COUNTY

By the Portsmouth Chamber of Commerce, Inc., Portsmouth, Va.

HISTORICAL

THE city of Portsmouth was founded in 1752 by Colonel William Craford, a justice of the Norfolk County court. In the original survey the four corners of High and Court streets were dedicated to public purposes—the northeast corner, now occupied by the Hotel Monroe, for a courthouse; the southeast corner for a market house; the southwest corner for the Trinity Church, and the northwest corner as a site for the county jail. The city grew slowly until 1900, when its population is given as 17,000. In 1910, due partly to natural growth and partly to annexation, the population had increased to 33,000. To-day the population is approximately 55,000. At present within a radius of fifteen miles this section has a population approximately of 300,000.

POINTS OF INTEREST

The historical Dismal Swamp with Lake Drummond in its midst is at the door of Portsmouth in Norfolk County. The two together recall to the mind "The Lady of the Dismal Swamp," that musical poem written by Sir Thomas Moore in the year 1804. The Dismal Swamp Canal, which

has great future possibilities, was undertaken by George Washington in 1807, but was not finally completed and opened to traffic until 1826.

In Portsmouth is also found the house which was occupied by the father of Grover Cleveland, who was pastor of the First Presbyterian Church in Portsmouth. The site of old Fort Nelson, a historic Revolutionary fortification, is found on the Naval Hospital grounds.

The main building of the Naval Hospital, constructed in 1823, is a splendid example of classical architecture and an ornament to the city. Trinity Church, originally built in 1762, is the oldest building in the city and one of the oldest in the country, with a continuous record as a parish. Monumental Church is the oldest Methodist church in the South, having been organized over a century ago.

The Roman Catholics have a handsome house of worship on High street, which is one of the most imposing church buildings in the South. The first congregation seems to have been organized about the time of the Revolutionary War on the present site at the northeast corner of High and Washington streets. The congregation consisted of a few French and Irish families and was first attended by priests from Norfolk.

There are a number of historic residences in

the city, the best known of which is possibly the brick mansion on Swimming Point. It is thoroughly authenticated that this house was the birthplace of Commodore Richard Dale.

AMUSEMENT AND RECREATION

The city has a splendid park provided by the Federal Government in the grounds of the Naval Hospital which, through the courtesy of the commandant, is open to all citizens on Sunday as well as week days. In addition, the city has provided and maintains four playgrounds—two for white and two for colored children. A park is also being developed on Bain's Creek, west of the city, which when completed will be one of the most attractive in the South, having playgrounds, athletic fields, bathing beach, zoo, drives, walks, rest and club houses. A country club has also been organized, and a splendid and commodious club house has been erected. Two golf courses have been developed.

A Portsmouth Playground

BUSINESS ORGANIZATIONS

The city is well represented in this respect. The Chamber of Commerce, the Rotary Club, the Kiwanis Club, and Lions' Club and the Retail Merchants' Association are in a flourishing condition and have energetic memberships.

COMMERCIAL AND INDUSTRIAL ADVANTAGES

Portsmouth has adequate banking facilities, which are a necessary adjunct to manufacturing concerns and general business as well as to the community at large. The banks of the city have high standings and are in a flourishing condition.

Portsmouth is a part of that great body of water, the historic Hampton Roads, which in depth, extent and climatic conditions, is ideal and unexcelled. A circular issued by the National Rivers and Harbors Congress calls Hampton Roads a "World Port in the Making." It is already conceded both in natural advantages and business to be one of the greatest ports in the United States. It can be made one of the greatest in the world. Ships of all nations come into this port for cargo or for bunker coal or for a harbor of refuge in case of violent storms. The harbor is always free from ice, it rarely has heavy gales, and tornadoes are unknown. It is the best natural harbor on the Atlantic coast, the least congested, and the most accessible. From Pinnas Point to Pig Point are many miles of undeveloped water front which in time will be lined with piers and slips. Portsmouth may thus take care of the commercial overflow from other cities of the United States for years to come, so Hampton Roads is a most valuable asset not only to Tidewater Virginia, but of the entire State and nation.

In the way of railway transportation Portsmouth has four great trunk lines terminating within its limits—the Pennsylvania, the Southern, the At-

lantic Coast Line and the Seaboard Air Line. The general offices of the Seaboard Air Line and its shops are located in the city. In addition, all roads are connected with the city by a great belt line which gives unexcelled advantages for manufacturing and wholesale business. This belt line has a trackage of thirty-six miles and by its use the Norfolk and Western, the Chesapeake and Ohio, the Virginian and the Norfolk Southern are directly connected with all man-

ufacturing concerns situated in the vicinity. This road enables industries to receive their raw materials more readily, to transport their products to destination without change of cars, and has the practical effect of bringing every railroad in the country directly to the doors of all establishments situated on the belt line. The industrial growth of Portsmouth has been gradual and the industries that border the Portsmouth Belt Line Railroad are substantial in every way. The Chamber of Commerce is confident that no city has more to offer from an industrial and commercial standpoint than has Portsmouth, when it is considered that many suitable sites are obtainable along the belt line or immediately adjacent to it. Besides the railroads the city is in the center of a great system of radiating highways running to North Carolina and to the west and southwest.

Portsmouth has excellent steamship lines running to all parts of the coast and by means of lighter service connects with various trans-Atlantic and Pacific lines running out of its sister city, Norfolk. The principal domestic lines are the Baltimore Steam Packet Company, Bennett's North Carolina Line, the Buxton Line, Inc., Elizabeth City Boat Line, Inland Steamship Company, Old Dominion Transportation Company and the Chesapeake Steamship Company. Portsmouth is approximately 320 miles south of New York city, 175 miles south of Baltimore, and within two hours' steaming time from the Virginia capes, the gateway to Europe.

INDUSTRIES

The great industry in the South in the past has been the Portsmouth Navy Yard, which is situated on the southern border of the city within the city limits. This yard was originally built by the British in the eighteenth century and was known as Gosport. After its abandonment by the British Government it was operated by private parties for some years and then purchased by the United States in 1801. At the beginning of the Civil War, when the city of Portsmouth was occupied by the Confederate forces early in 1861, the yard was burned by the Federal troops on evacuation. It was, however, rebuilt by the Confederates and held and used by them until Portsmouth was re-occupied by the Federal forces in 1862. From this date on it has been occupied by the Federal Government. It is interesting to note that at

The Character Factory—Portsmouth's Handsome and Well-Equipped Y. M. C. A.

different times five different flags have flown from the flag pole over this yard—first the British; then the Colonial; then the flag of Virginia; then the Confederate flag, and finally the United States flag. To the yard in recent years has been added a great naval magazine and a series of splendid and commodious buildings for the forces of the United States Marine Corps, which are stationed in Portsmouth. The yard is now the best equipped and the most complete in the country and contains one of the two drydocks on the Atlantic coast which is capable of docking a vessel of the size of the "Leviathan." The navy yard covers approximately 450 acres of ground and all things considered is the most important Federal yard in the country.

At Pig Point, near Portsmouth, is a great ordnance depot which contains many million dollars worth of ordnance stores and which is connected by road and railroad with Portsmouth. This depot is provided with a great wharf over which materials and military supplies may be received and shipped.

Some of Portsmouth's principal industries are as follows:

Car wheels	Coffee roasting
Shipbuilding	Cotton mills
Fertilizer	Sea foods
Agricultural	Excelsior
Creosoting	Truck packages
Veneer mills	Machine shops
Hosiery	Oil
Dyeing	Copper smelting
Railroad shops	Cotton tie and bagging
Lumber	Manufacture
Government operations	Paper boxes

In a commercial way Portsmouth has many important wholesale and retail establishments

which compare favorably with those of cities of the same size. Some of the principal import and export and coastwise commodities handled through this port in 1924 were:

Agricultural products	Coffee
Coal	Meats
Cotton products	Oil
Fertilizer	Piling
Lumber and logs	Shells and oysters
Nitrates	Wood products
Packing house products	Brick
Railroad ties	Canned goods
Tobacco	Cotton seed products
Beans	Live stock
Cement	Peanuts
Dry goods	Pig iron
Hides	Copper

Portsmouth is in the center of the greatest peanut-growing section in the world. It is also located in the greatest trucking section of Virginia and probably one of the greatest in the country. It is near to and connected by direct roads with the sources of those great raw materials so essential in industry, such as cotton, lumber, coal, etc.

The climate of the city makes it particularly advantageous for industrial and commercial establishments to establish themselves in this locality. The average temperature is about 60 degrees for the year; the mean temperature for the coldest month is about 41 degrees, and for the hottest month 79 degrees. As already pointed out, the violent storms are unknown, the harbor is ice free, and outdoor work is possible at all seasons of the year, and those who must spend the summers in the city have access to nearby beaches by splendid automobile roads and electric railways, which

offer a ready and economic means of relief for week-end trips during the hot weather.

MUNICIPAL FEATURES

The city owns a splendid water supply system which furnishes an abundance of water which is considered exceptionally good for use in boilers and has been pronounced by eminent chemists as unexcelled for drinking purposes. This water is obtained from Lake Kilby, near Suffolk, and is pumped to reservoirs in Portsmouth for distribution. Lake Cahoon is available as a reserve supply and is connected with Lake Kilby by a water main through which water may be pumped by electric pumps located near Lake Cahoon. The water supply is sufficient for a city of 150,000 as it now stands and could be extended still further by increasing the height of the dams at Lake Kilby and Lake Cahoon. Under a recent decision of the Council water will be supplied to factories at as low a rate as is given by any other water department in this locality.

The city has an excellent engineering department and the work done by that department speaks for itself in the way of many miles of paving, curbing and gutters, sewers and public buildings added to the city in the last two years.

The Department of Public Welfare of Portsmouth is second to none in comparison with cities of the same size of Portsmouth. The health of the community has been maintained in excellent condition and contagious and infectious diseases reduced to a minimum. Through the various activities of this department our food products, especially milk, are carefully inspected, and the milk ordinance of the city of Portsmouth is a model which has been copied by many other cities. The department maintains free clinics and through its system of visiting nurses instructs our citizens in the methods of avoiding disease, in caring for the sick, and in maintaining health. In the coming year it is hoped that the entire work of the department will be combined in one health center which will house not only the activities of the health department proper, but of other related activities now functioning individually in the city. This arrangement will bring practically all health and charitable work of the city under one roof and under one control.

The public schools of Portsmouth are of a particularly high standing and under the present system management are a source of pride to the entire city. The grammar schools give an excellent grounding in the essentials and in the high school this is carried forward and the scholars given a chance to specialize in various courses. A graduate of the high school may be admitted directly to college or the university without examination.

The Police and Fire Departments of Portsmouth are efficient and well organized. The Fire Department is completely motorized and the efficiency of its work is recognized by all fire underwriters.

Downtown, High Street—Portsmouth—Five Miles Long

The Police Department during the past year has made a new record in law enforcement and is steadily improving. A new system for the identification of criminals has been installed during the year.

Portsmouth has the city manager and council form of government, consisting of a small council of seven men elected by the people. This Council in turn elects a city manager, who is the administrative and executive head of the city. The tax

rate is low as compared with other cities in Virginia and very low as compared with that of cities in adjoining States. Property is assessed at about 70% of its actual value and the present tax rate per \$100.00 is for the city, \$2.10; the State rate is \$0.25, making a total of \$2.35. From this rate not only are the running expenses of the city paid for, but interest and sinking fund on bond issues covering sewers, paving, sidewalks and all public improvements are provided for, whereas in all States excepting Virginia and South Carolina these latter expenses are borne directly in whole or in part by abutting owners.

A magnificent new and modern city market has just recently been opened.

PUBLIC INSTITUTIONS, CHURCHES, ETC.

The city, in the way of hospitals, has the magnificent naval establishment in the Hospital Park, which is the greatest naval hospital in the country and available in emergencies for citizens. The commandant of the hospital has always co-operated in every way with the community and the presence of the hospital in the city is an asset. In addition to the Naval Hospital, the city has the advantage of the King's Daughter's Hospital and the Parrish Memorial Hospital, both splendid and up-to-date institutions. Portsmouth has a public library, Y. M. C. A., a Home for the Aged, a City Home, an Orphan Asylum, a Y. W. C. A., a Catholic Club, a Colored Old Folks' Home, a Colored Orphans' Home, and a Colored Day Nursery.

The city has approximately fifty-six churches of various denominations with property valued at approximately \$1,500,000.00. Both white and colored people are well provided with places of worship. The following are the principal religious bodies represented: Baptists, Methodists, Roman Catholics, Protestant Episcopal, Presbyterian, Lutheran, Christian, Congregational, Friends, Seventh Day Adventists, Church of God, Holiness bodies, Salvation Army, and Hebrews.

GENERAL

Portsmouth is:

Large distributor of seafoods.

Large peanut center.

Large distributor of vegetables.

The Central Atlantic Port—One of America's finest gateways to the seven seas.

On Hampton Roads—first American port in export tonnage.

An important lumber market.

One of the largest fertilizer centers.

Second port in waterborne tonnage.

Second hardwood lumber port.

One of the closest to the raw materials sources of the world.

Operated efficiently as a big industrial enterprise under a city manager form of government.

Rapidly becoming one of the most important of American ports.

Building up a great business through her port by giving dispatch and economical service.

A year-round resort city.

A good home city.

The place for your new industry.

The city on the Atlantic Seaboard having a practical Belt Line railroad.

Great coffee center.

Portsmouth Has:

The world's finest harbor, free from ice the year 'round.

Eight trunk line railroads.

One of the most complete belt line systems in the world.

Unexcelled distribution advantages.

Splendidly equipped shipbuilding and repair yards.

One of the largest dry docks in the world.

Skyline of Portsmouth from the Air

The Largest Lumber Cargo Clearing from the Port of Portsmouth—1,447,394 Feet

Largest and finest of America's Naval Hospitals.

Best equipped naval repair yard in the country.

A fine city government—manager form.

A harbor capable of accommodating many thousands of ships.

A harbor with a tidal range of only two and one-half feet.

A harbor free from ice, from dangerous currents, disastrous winds—a safe harbor.

A channel of forty-foot depth to the sea—eighteen miles distant.

Assembling and distributing facilities for the making of an excellent jobbing center.

Terminal yard track capacity of 35,000 cars.

An excellent and co-operative labor situation.

In closing it may be stated that Portsmouth is the third city of the State of Virginia. Its location on the west side of the Elizabeth River gives it a position admirably fitted to make it a great city. Being situated on the mainland, its water front may

be reached without crossing rivers or draw-bridges, and it is the natural terminus of all roads reaching Hampton Roads on the south side of the James River. Its success seems assured and it cordially invites those interested in industry, general business or commerce to visit it and to ascertain first-hand its wonderful advantages.

J. L. Hill, Jr., Richmond.
H. A. Manning, Springfield.
J. M. Gardner, Toronto.

General Offices: 524-528 Broadway, corner Spring St., New York City

The Association of North American Directory Publishers is composed of reputable City Directory Publishers, organized for the general advancement of the Directory business. Any person, corporation or firm engaged in business as owner and publisher of a City Directory in the United States or Canada, who shall qualify as competent to gather information and compile a City Directory and furnish satisfactory references, is eligible to membership.

The objects of the Association are:

First: The advancement of the Directory business and the improvement of Directories by the interchange of ideas and the exchange of experienced employees.

Second: To provide protection to the public against fraudulent advertising schemes which operate under the name of Directories, and to drive unprincipled promoters of the same out of business.

Third: To provide permanent and profitable employment to competent, industrious and honest Directory canvassers and compilers.

Fourth: For the mutual protection and advancement of the established and prospective interests of all who may become members, by personal advice and assistance of members as may be mutually satisfactory, desirable or advisable, and by such other means as may, from time to time, be shown to be wise, proper and lawful.

All members of this Association have subscribed to the following

STANDARDS OF PRACTICE

1. To consider, first, the interest of the user of the book.
2. To subscribe to and work for truth, honesty and accuracy in all departments.
3. To avoid confusing duplication of listings, endeavoring to classify every concern under such headings as best describe it, and to treat additional listings as advertising, to be charged for at regular rates.
4. To increase public knowledge of what directories and reference media contain; to study public needs and make directories and reference media to supply them; to revise and standardize methods and classifications so that what is wanted may be most easily found, and the directory and reference media be made to serve their fullest use as business and social reference books and directories of buyer to seller and seller to his market.
5. To decline any advertisement which has a tendency to mislead or which does not conform to business integrity.
6. To solicit subscriptions and advertising solely upon the merits of the publication.
7. To avoid misrepresentation by statement or inference regarding circulation, placing the test of reference publicly upon its accessibility to seekers as well as on the number of copies circulated.
8. To co-operate with approved organizations and individuals engaged in creative advertising work.
9. To avoid unfair competition.
10. To determine what is the highest and largest function of directories and reference media in public service and then to strive in every legitimate way to promote that function.

\$100.00 REWARD will be paid by the Association for the arrest and conviction of any person or persons engaged in publishing, collecting or canvassing for any fraudulent or "fake" Directory.

The Portsmouth Star

Every Evening and Sunday Morning

WMAN R. HAMILTON,
President.

A. McK. GRIGGS,
Editor.

W. BLOUNT DARDEN,
Advertising Manager.

Virginian-Pilot

AND
THE NORFOLK LANDMARK

Only Morning and Sunday Paper Printed in Norfolk, Virginia

Covering Norfolk, Portsmouth, Newport News, Suffolk, Elizabeth City
and Principal Towns in Virginia and North Carolina

What Do They Read in Norfolk, Va.?

A few magazines, with their favorite author; a trade paper, and then a book. They may read any one of the dozen publications—

But—

—they all do read one paper that is distinctly and peculiarly their own, that has, as far back as they can remember, been an integral, indispensable part of their daily life. That paper is the

A REALTOR

IS

"A real estate broker who is a member of a local Board having membership in the National Association of Real Estate Boards, an organization incorporated in 1908 for the protection of the public from unprincipled agents or brokers."

THEREFORE transact your Real Estate business with a REALTOR

BECAUSE

A Realtor is a Real Estate Broker who is a member in good standing of the Norfolk Real Estate Board, Virginia Real Estate Association, National Association of Real Estate Boards, whose object is to promote and maintain high standards of business conduct in the transaction of the Real Estate business.

BECAUSE

Realtors have a code of Ethics and enforce it.

BECAUSE

A Realtor has the advantage of the knowledge and experience derived from association and co-operation with other Realtors in the city of Norfolk, in the State of Virginia, and 25,000 in the United States.

BECAUSE

The Realtors maintain a fully equipped office which has full and up-to-the minute information on all subject of assessments, taxes, property transfer, and plats of all the property in the city and suburbs, and therefore can give a real service to property OWNERS.

BECAUSE

They devise, advocate and support legislation looking to the betterment of conditions concerning Real Estate.
